All these books are getting covered in dust...
Where could we put them?

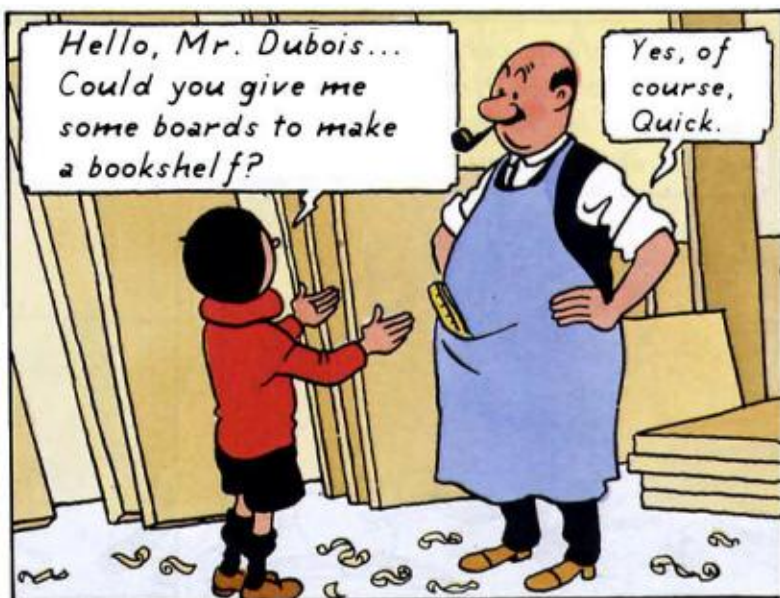

A bookshelf!... Why didn't I
think of that?... I'll build a
bookshelf!...

Hello, Mr. Dubois...
Could you give me
some boards to make
a bookshelf?

Yes, of
course,
Quick.

It's amazing, a bookshelf!

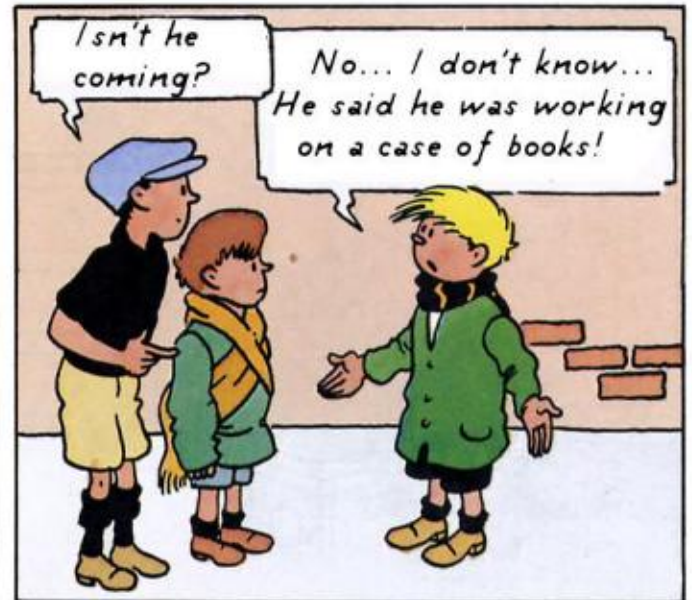

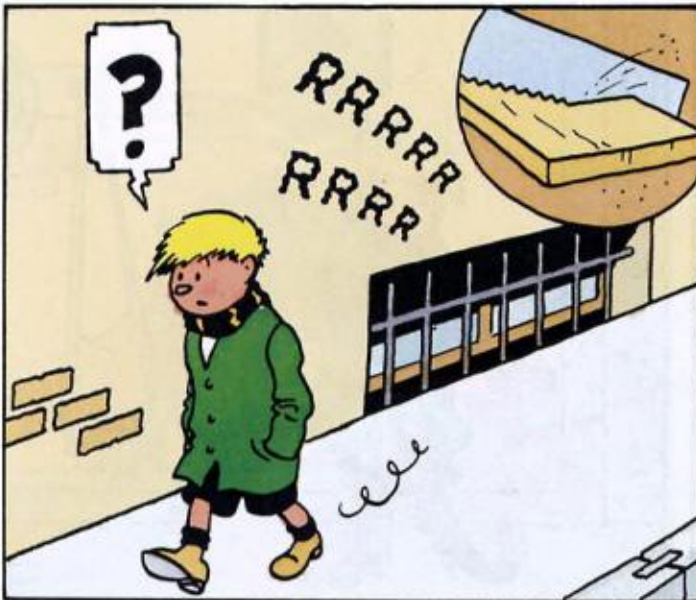

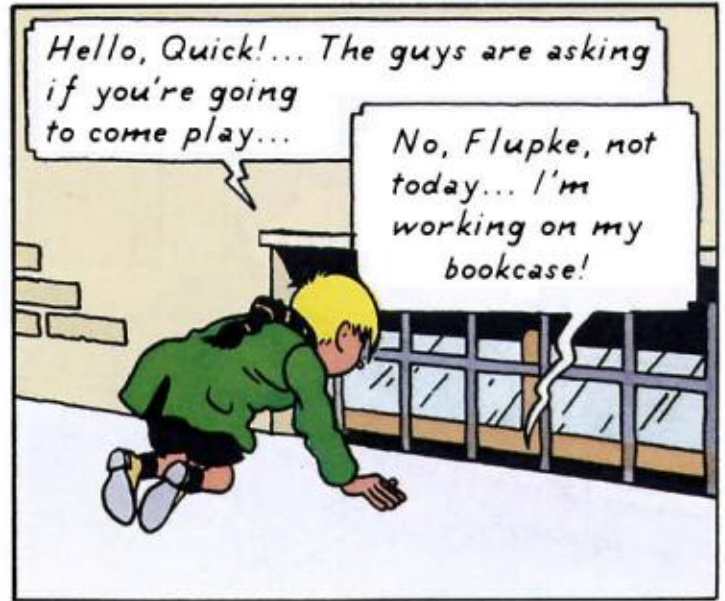

Mama, I'm going down to the cellar...
I'm building a bookshelf...

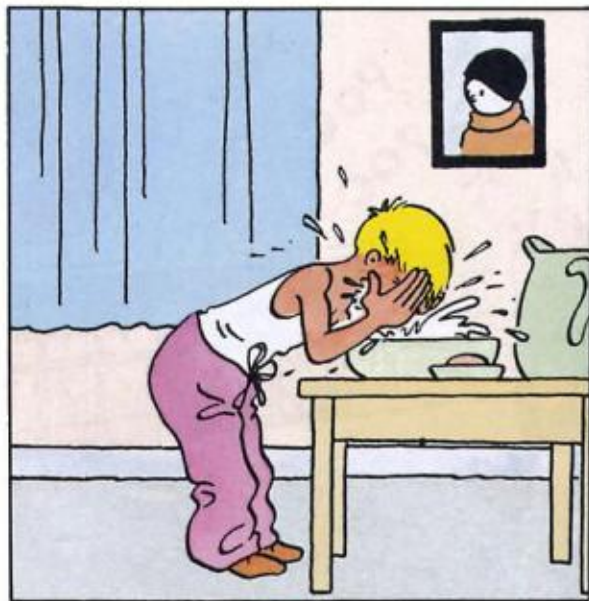

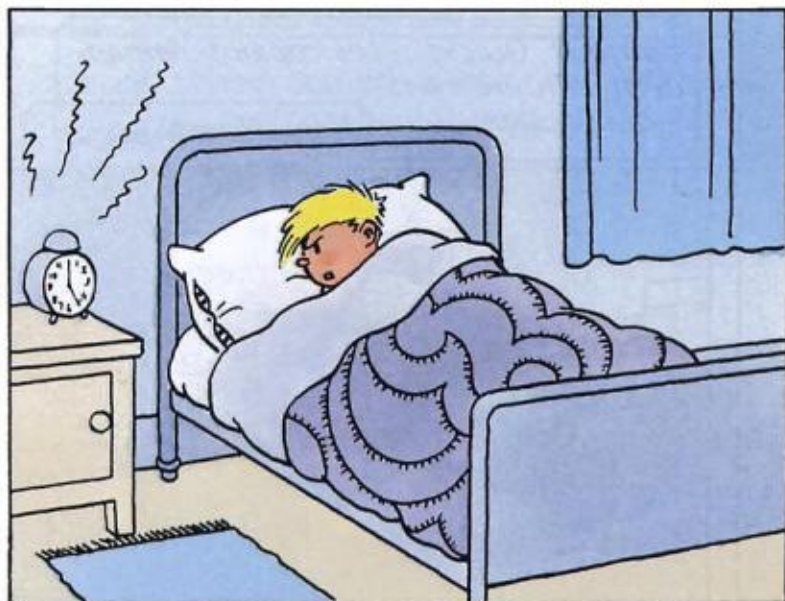

A bookshelf?...
That's great, but
make sure you
don't wreck anything!

There's the hull already!... It cuts a fine figure!...

Now the mast... Then the sails!

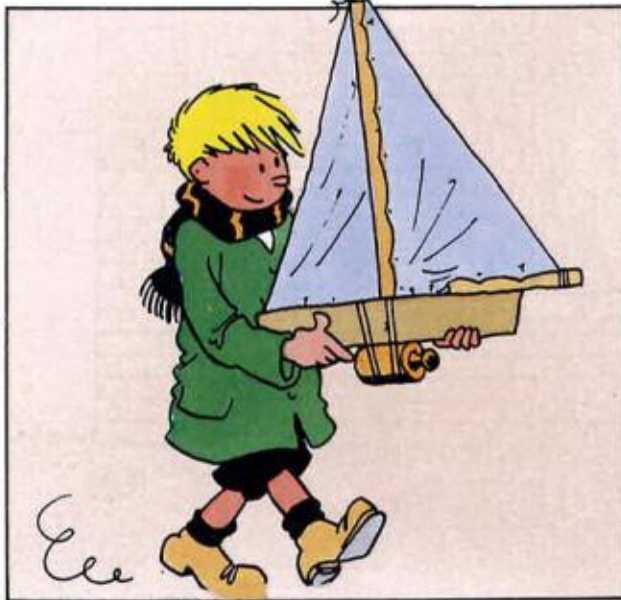

FLUPKE THE MODEL-MAKER

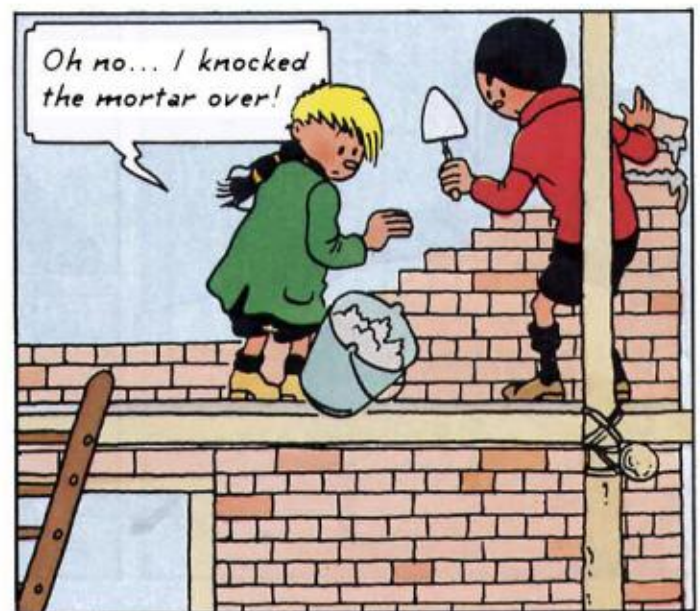

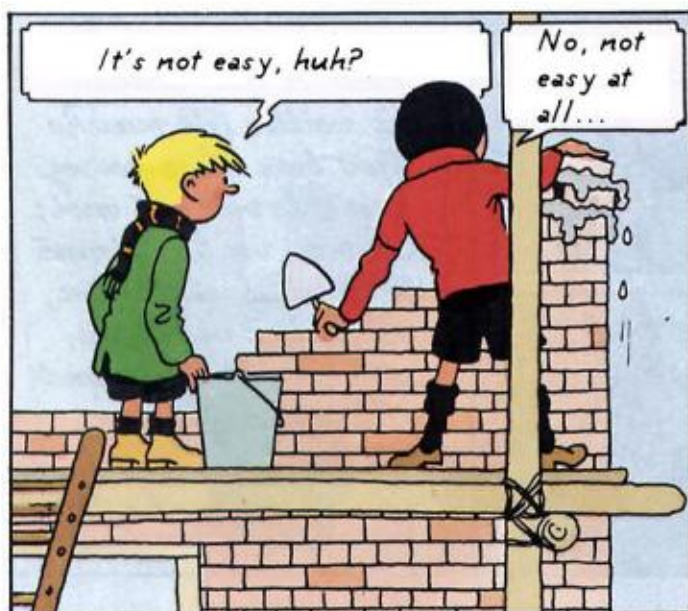

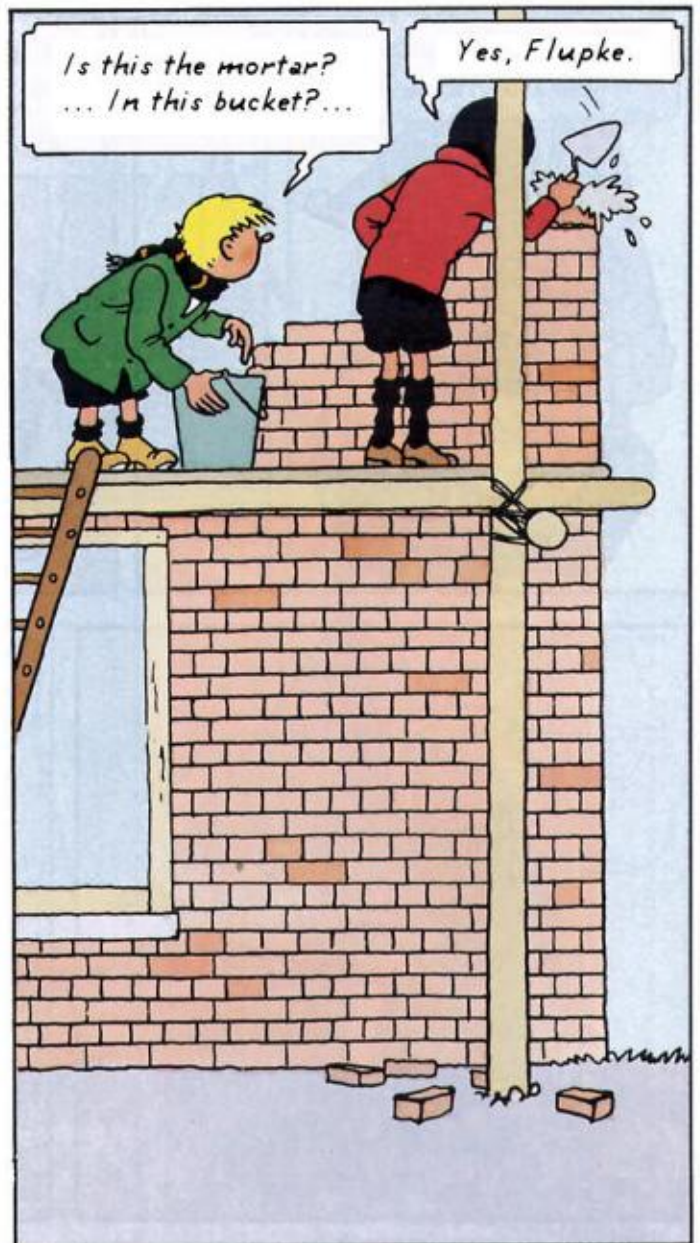

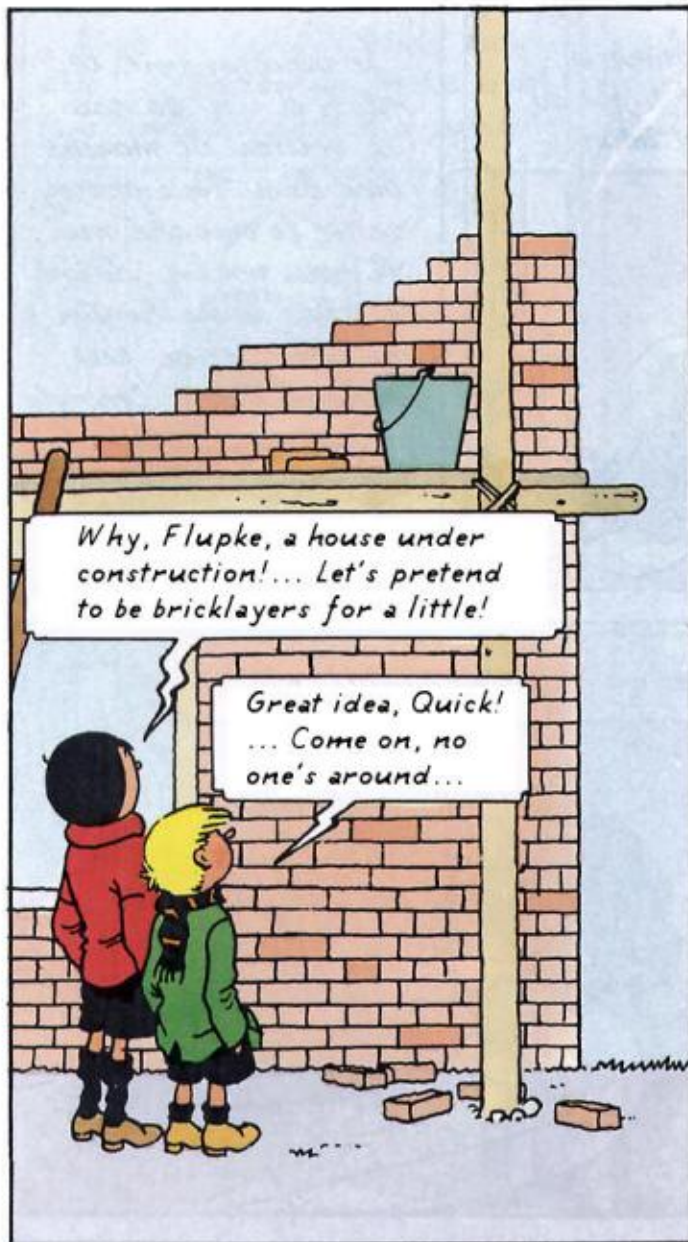

I'm sending a sailboat blueprint. It works very well. You can come and see me test it if you like, put the blueprints in Tintin, don't distribute it to everybody, give it to the poor subscribers.
